COMPUTER ENGINEERING

Welcome Function for first year students. The Department of Computer Engineering organized a formal Welcome Function to introduce first-year students to the academic environment and departmental framework, under the guidance of **Principal Dr. K. V. Chandratre** and **H.O.D. Prof. Vijay Bodake**.

The program included an overview of the curriculum, facilities, and career opportunities, along with guidance from faculty members on technical skills and professional development. To create an engaging atmosphere, various student introductions, interactive sessions, and fun ice-breaking activities were conducted. Senior students also shared their experiences to help new students settle in. The event provided a structured and interactive platform for students to confidently integrate into the engineering program.

EXPERT LECTURE ON ESSENCE OF INDIAN CONSTITUTION

The Department of Computer Engineering organized an expert talk on **“Essence of Indian Constitution”** on **24th September 2025** in the Seminar Hall. The session was delivered by Mr. Ajit Takke, who explained the importance of the Constitution as the supreme law of the country. He highlighted key aspects such as the Preamble, Fundamental Rights, governance, and constitutional amendments. The talk also emphasized electoral literacy and responsible voting, creating awareness among students about their role as citizens. Around **120 students actively** participated in this informative session. Overall, the expert talk enhanced students' understanding of constitutional values and their significance in everyday life.

INDUSTRIAL VISIT AT NPIT SOLUTION PVT.LTD,NASHIK.

The **Department of Computer Engineering** organized an Industrial Visit for **SY and TY Computer Engineering students** on **10th October 2025** at **NPIT Tech Solutions Nashik**, as part of its initiative to provide exposure to real-world industrial practices. The visit aimed to enhance students' practical knowledge and bridge the gap between academic learning and industry requirements. During the visit, students gained insights into current technologies, working methodologies, and professional practices followed in the IT industry. The visit proved to be highly informative and beneficial, contributing to the development of technical skills and industry awareness among students.

INDUSTRIAL VISIT TO NEXONICA SYSTEM PVT.LTD ,NASHIK

As part of its continuous efforts to strengthen practical learning, the **Department of Computer Engineering** organized an **Industrial Visit** for **SY and TY students** on **10th October 2025** at **Nexonica System Pvt. Ltd., Nashik**.

The visit was conducted with the objective of providing students with real-time exposure to industry practices and enhancing their understanding of technical concepts beyond the classroom. Students were introduced to various aspects of software development, system operations, and modern technologies used in the organization.

WORKSHOP ON PERSONALITY DEVELOPMENT AND SOFTSKILL

The Department of Computer Engineering organized a **One Day Workshop on Personality Development and Soft Skills** on **18th September 2025** from 8:00 AM to 3:30 PM.

The session was conducted by **Mr. Ravi Bhadane**, focusing on communication skills, confidence building, and professional behavior. The program began with a welcome speech and felicitation of the guest, followed by an introduction by **Prof. S. A. Sarode**. Through interactive and hands-on activities, students enhanced their personality, teamwork, and presentation skills. A total of **120 students** actively participated. The workshop concluded with a vote of thanks, making it a **valuable and impactful learning** experience for all participants.

WORKSHOP ON CLOUD TECHNOLOGY BY NEXONICA SYSTEM PVT.LTD

The **Department of Computer Engineering** successfully organized a two-day **Workshop on Cloud Technology** on **13th and 14th October 2025** at Lab 127 under the **initiative of CSEA**. The workshop was conducted by **Mr. Prakash Ekhande, Chief Technical Officer of Nexonica System Pvt. Ltd.**. A total of **59 students** actively participated in this college-level workshop, gaining valuable technical exposure. The primary objective of the workshop was to introduce students to **cloud computing concepts**, modern tools, and real-world applications. The sessions were designed to enhance students' practical skills and bridge the gap between academic knowledge and industry requirements. The workshop was conducted using **PowerPoint presentations, interactive discussions, and hands-on practical sessions**, ensuring an engaging learning experience.

WORKSHOP ON PERSONALITY DEVELOPMENT AND SOFT SKILL

Day 1 Highlights (13th October 2025)

The first day began with the introduction of the resource person and an overview of the workshop. Students were introduced to the fundamentals of **cloud computing**, followed by practical demonstrations such as:

1. Creating and hosting a simple web application on the cloud
2. Building file systems using HDFS
3. Workspace creation and scaling using Codenvy.

Day 2 Highlights (14th October 2025)

The second day started with a recap of previous concepts and advanced into more technical topics, including:

- Identity and Access Management using OpenStack
- Server security configuration using open-source tools
- IoT applications using Arduino and Raspberry Pi
- Cloud-based automated applications using RFID. The workshop concluded with a valedictory session, marking the successful completion of the program.
